github.com/RavinduLayanga ravindulayanga.github.io

Software Engineer with a BSc (Hons) in Computer Science and hands-on industry experience developing full-stack web applications. Skilled in Java, JavaScript, RESTful APIs, relational databases, and modern web technologies, with experience using Git and CI/CD workflows.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Java, Python, PHP, SQL
- **Web & Frontend:** HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap
- **Backend:** Java, Javalin, Node.js, Flask, CodeIgniter 4
- **Databases:** PostgreSQL, MySQL, SQL Server
- **Architecture & Core Concepts:** REST APIs, Object-Oriented Programming (OOP)
- **Testing & Quality:** Unit Testing, Debugging, Code Reviews
- **DevOps & Tools:** Git, GitHub, CI/CD (GitHub Actions), Postman, VS Code, IntelliJ IDEA

PROFESSIONAL EXPERIENCE

Software Engineering Intern - CodeOne-X (JFS ICT Services Pvt Ltd) Oct 2023 - Sep 2024

- Engineered and maintained production web applications using CodeIgniter 4 and RESTful APIs, actively participating in Agile development cycles and peer code reviews.
- Collaborated with cross-functional teams to develop enterprise HRMS modules, ensuring clean code practices and system reliability through continuous debugging and refactoring.
- Built responsive interfaces using Vue.js, Bootstrap 5, and Tailwind CSS, while designing and maintaining MySQL and SQL Server databases.
- Maintained and optimized WordPress corporate websites, including custom development, SEO, performance, and security improvements.

SELECTED PROJECTS

Clothing & Fashion E-Commerce Platform

Individual Project **Live Demo:** fashion-store-lime-one.vercel.app

- Built a full-stack e-commerce platform using Next.js and an Express/Prisma API, featuring product search and filtering, variant-based inventory, a shopping cart, and guest checkout.
- Implemented transactional inventory reservations, an admin dashboard for product and order management, and PayHere sandbox payment integration.

Technologies: Technologies: Next.js, React, JavaScript, Express.js, Prisma ORM, PostgreSQL

Train Seat Booking System

Individual Project

- Developed a full-stack train seat booking system with a Java/Javalin REST API and React frontend. Implemented PostgreSQL database operations using JDBC, transactional booking with row-level locking, seat availability checking, and RESTful API endpoints.

Technologies: Java, Javalin, PostgreSQL, JDBC, React, JavaScript, SQL, Docker

MixCap - Multimodal Captioning System

Final Year Research Project

- Designed and trained a multimodal deep learning model that combines visual and audio features to generate video captions.
- Built and deployed a full-stack web interface using React and Flask, enabling users to generate captions through a RESTful API.

Technologies: Python, PyTorch, React.js, Flask, REST APIs, Multimodal Deep Learning, Machine Learning

SmartNotes AI - AI Note Summarization Platform

Individual Project **Live Demo:** smart-notes-ai-gold.vercel.app

- Developed a full-stack Next.js 16 application featuring AI-powered note summarization, secure Google OAuth authentication, and a serverless Neon PostgreSQL database.

Technologies: Next.js 16, Auth.js, Neon PostgreSQL, Tailwind CSS, Vercel

MediTrack - Pharmacy Management System

Individual Project

- Implemented a Java and MySQL-based pharmacy management system featuring inventory management, sales processing, and secure user authentication using object-oriented design principles.

Technologies: Java, MySQL, OOP Principles

EDUCATION

BSc (Hons) Computer Science - Upper Second Class Honours **2022 - Aug 2025**

University of Westminster, UK (Informatics Institute of Technology, Sri Lanka)

COMPETITIONS & CERTIFICATIONS

- **React Essential Training -** LinkedIn Learning (2026)
- **Swift 5 Essential Training -** LinkedIn Learning (2024)
- **Node.js Essential Training -** LinkedIn Learning (2023)
- **Java Object-Oriented Programming -** LinkedIn Learning (2023)
- **Finalist (Top 7)** - Haxmas 2023 Intra-University Hackathon
- **Participant** - Microsoft Imagine Cup 2023

EXTRACURRICULAR ACTIVITIES

- **IEEE Computer Society, IIT -** Organizing Team Member (IndustPro 2.0) & Volunteer.
- **Rotaract Club of IIT -** Interactors In-Charge (Trailblazer ’22)/ General Volunteer (Parallax ’22).
- **Mozilla Campus Club, IIT -** Media Team Volunteer (OpenHack ’22).
